Introduction

Proposals are currently being sought from member institutions to host the ANZIC Marine Geoscience Masterclass in 2025 and 2026. The program aims to introduce high-achieving undergraduate students to specialist techniques and unique opportunities to prepare them for future participation in scientific ocean drilling expeditions.

Hosting an ANZIC Masterclass is a great opportunity to share knowledge from and expertise in scientific ocean drilling. ANZIC supports host institutions through provision of funding, marketing materials, assistance with participant travel, and ongoing administrative support.
