ANZIC Scientific Drilling Participation Support – Australia

The Australian and New Zealand International Scientific Drilling Consortium (ANZIC) equips scientists in Australia and New Zealand with the skills, global connections, samples and data needed to explore Earth's interconnected processes, past and future.

With a view to deep Earth discovery that underpins a resilient and sustainable society, ANZIC supports scientists in Australia and New Zealand to participate in scientific drilling/ coring expeditions or projects run by international scientific drilling programs.

ANZIC Scientific Drilling Participation Support is available to scientists or students at a Host Institution that is an Australian ANZIC member institution who have been selected or invited as a Participant in a scientific drilling Expedition or Project.

Scientists or students affiliated with a New Zealand ANZIC member institution can apply for **GeoDiscoveryNZ support here**.

Applications will only be considered if submitted within four months of material being available through the IODP³ (at a post-cruise sampling party) or ICDP systems.

Other conditions and limitations are outlined in the Guidelines for ANZIC Scientific Drilling Participation Support in this form and the ***ANZIC Travel Expenditure Policy***

Applications will only be accepted via the SmartyGrants platform.

For questions, please contact the ANZIC Office: ANZIC.Coordinator@anu.edu.au

Privacy Notice

Privacy Collection Notice:

The information on this form is being collected by the **Australian & New Zealand Scientific Drilling Consortium (ANZIC) and the Research School of Earth Science (RSES) at** Australian National University (ANU). This grant application is hosted by **the SmartyGrant platform and is an initiative of the ANZIC Science Committee.** A copy of your application details will be provided to them for assessment and a record will be maintained by the ANZIC Office.

The information will be used by authorised staff for the purpose for which it was collected, and any other purpose which you have expressly consented to.

You can withdraw your application any time by contacting: **anzic.coordinator@anu.edu.au**.

If you do not provide all the information that is requested on this form, it may not be possible for us to ensure your eligibility for the support.

The ANU is committed to protecting personal information provided by you in accordance with the *Privacy Act 1988 (Cth)* and the information will be protected against unauthorised access and use.

All information collected by the University is governed by the ANU Privacy Policy.

For further information about how the University deals with personal information, please refer to the ANU Privacy Policy or contact the ANU Privacy Officer at privacy@anu.edu.au.

You may access or request correction of any personal information you have provided to ANU by contacting privacy@anu.edu.au.

Applicant information

* indicates a required field

Your project title *

Word count:
Keep it short and to the point (~20 words or fewer)

Applicant name *
First Name Last Name

Which of the following most accurately describes you? Choose as many as you like. *
☐ Female
☐ Male
☐ Non-binary
☐ Transgender
☐ Intersex
☐ I prefer not to say
☐ Other:

Email *

Phone Number *
Must be an Australian phone number.

University/Affiliation *
This application form is for people at an Australia-ANZIC members institution

Institution Research Office and contact
First Name Last Name

Email

Must be an email address.
If unknown, leave blank

Are you of Aboriginal or Torres Strait Islander origin? *
- ○ No
- ○ Aboriginal
- ○ Torres Strait Islander
- ○ Both Aboriginal and Torres Strait Islander
- ○ Another Indigenous people
- ○ Prefer not to say

Additional information

* indicates a required field

Scientific Drilling Expedition or Project

NOTE: you will be required to upload a letter or other document that confirms you have formally been invited to join the expedition or project as a member of the science party.

Which scientific drilling program? *
- ☐ IODP³
- ☐ ICDP
- ☐ Other:

Name the international scientific drilling expedition or project *

Use the official program title

Please list any other ANZIC participants in this expedition/project

Are you the participant coordinating the involvement of other ANZIC participants?
- ○ No
- ○ Yes

Participation Support Project Details

Contribution to drilling costs for ICDP Projects

Skip and move onto the next section if this is not relevant to your participation support request.

Subject to funding being available and an ICDP Funding Agreement being in place, ANZIC will provide a contribution towards the costs of drilling for ICDP projects. Participants in ICDP projects in Australia, New Zealand (including Antarctica territories), or Oceania can apply to receive AU$160,000 (roughly equivalent to US$100,000) per Project towards drilling costs. Participants in all other ICDP projects can apply to receive AU$80,000 (~US$50,000) per Project.

Are you applying for a contribution towards drilling costs for an ICDP project (noting that only one person per project can apply for this funding, so please coordinate with other ANZIC participants)?

☐ Yes, project in Australia, New Zealand (including Antarctica territories) or Oceania ($160,000)
☐ Yes, international project ($80,000)
☐ No, another ANZIC participant in this ICDP project is applying for this funding
☐ No, this funding contribution is not required

List name of other ANZIC participant in this ICDP project are applying for this funding

Expedition/Project related travel budget

ANZIC Participation Support can cover costs associated with the expedition/project related travel in the following table.

Generally, reasonable and pre-approved travel costs (e.g. flights, ground transport, accommodation, meals, visas) associated with Expedition/Project participation will be fully funded, but Participants should seek co-funding for travel costs from the Expedition/Project budget via the Co-Chiefs or Principal Investigators.

Please indicate which project travel components you wish to have funded below. Also include known or anticipated travel dates:

Travel request	Destination (city/country)	Expenditure amount (budgeted)	Notes
Add all that apply to you	If known	Must be a dollar amount.	eg dates if known

Travel Budget Totals

Total Expenditure Amount

This number/amount is calculated.

Post Drilling Analytical Funding (PDAF)

Post Drilling Analytical Funding (PDAF)

PDAF requests may include:

- analytical costs
- sample shipping
- software licenses critical to project success, such as imaging or data processing software (critical nature to be clearly justified)
- access to or application of specialist data science or machine learning expertise to drilling datasets
- research assistant/technician support to digitise, collate and/or format drilling data as a key step towards addressing wider or critical scientific questions
- access to supercomputing on national facilities or through web-based services (e.g. climate or geodynamic models that are used to ground-truth drilling data, biological models, genetic and/or other data processing, etc.)
- publication fees
- training courses that help researchers understand how to better access and interrogate drilling-related data

PDAF funds *cannot* include indirect support costs of staff employed by the Participant or their Host Institution, or for the indirect costs of research.

The level of Post-Drilling Analytical Funding is up to $25,000.

Please copy and paste the main objectives of your expedition/project. This is typically found in your expedition's Scientific Prospectus

This helps our ANZIC Science Committee review faster, instead of hunting down the information

Please briefly outline your personal post-drilling project description, clearly stating your aims and objectives and how these align with the expedition/project objectives

Outline your sampling plan and methods

Feel free to upload an excel table instead

Outline how your proposed post-drilling project complements or integrates with other ANZIC participants in this expedition/project

Please state if you haven't had the chance to discuss this yet

Post-drilling publication intentions (if agreed with the Co-Chiefs on your Expedition or Project)

Please outline the anticipated outcomes, beyond publications, and potential and/or desired long-term impacts of your post-drilling project for society, environment and economy. In preparing your response, you may wish to consider the CSIRO Impact Framework [https://www.csiro.au/en/about/Corporate-governance/Ensuring-our-impact/A-CSIRO-wide-approach-to-impact]

Budget

Include a budget for your post-drilling analytical work, including a description of how each budget item links to your project plan and the planned date for completion.

Fields for SmartyGrants budget table:

- Budget table
- Budget total – Must not exceed A$25,000
- In-kind/other contributions

Expenditure Items	Cost AUD (ex GST)	What Objective from your proposal above does this apply to?	Justification	Date of completion

PDAF Budget Totals

Total Expenditure Amount

This number/amount is calculated.
Must not exceed A$25,000

Please provide further information about any additional financial support that you have secured to support your involvement in this expedition or project, or outline a plan for how you propose to use ANZIC Participation Support funding to leverage additional funding from other sources.

In-kind/other contributions

Description of expenditure	Type	A$ amount (ex GST)

Document upload

Please upload any supporting documents below.

Uploads could include:

- **Official expedition or project invitation email**
-

Supporting figures for your proposal

- **Sampling plan spreadsheet**
- **CV, with publication list**
- **Letters of support**

Post Drilling Funding Reporting and Acknowledgement

A final report (3 pages) that summarises activities and outcomes of the project, plus a financial acquittal, will be required about 2 years after funding commences, ideally after the moratorium period of the expedition or project finishes.

The application will be reviewed by the ANZIC Program Manager and several ANZIC Science Committee members.

Funds will be made available upon execution of a Grant Agreement between The Australian National University and the participant's Host Institution.

Successful applicants must acknowledge ANZIC funding in any publications, reports or presentations in the manner outlined in the Grant Agreement.
