Introduction

ANZIC is looking for vibrant and passionate individuals to join the renowned ANZIC Science Committee. If you have a keen interest in international and interdisciplinary research, a love of collaboration, and a desire to help unravel the Earth's mysteries, this is the opportunity for you!

Our Science Committee has oversight of ANZIC's scientific program, including setting criteria and assessing and ranking applications for expeditions, post-expedition support, legacy projects, training initiatives, and workshops.

ANZIC celebrates a spectrum of perspectives! Our committee is rich in diversity, welcoming applicants from various backgrounds and career stages.

What's in it for You?

Knowledge boost: Enhance your understanding of international drilling programs, operations and opportunities. Gain insights into cutting-edge research themes from climate, deep life, geodynamics, geohazards, and resources on land and in the vast ocean.

Collaborate globally: Forge connections with professionals, researchers and institutions nationally and worldwide, creating opportunities for collaboration and growth. Broaden your networks within the International Ocean Discovery Program (IODP) and International Continental Scientific Drilling Program (ICDP).

Impactful contribution: Be a key player in decisions that shape scientific and educational opportunities, funding support and governance at ANZIC.

Candidates from member institutions not currently represented on the [Science Committee](#) are particularly encouraged to apply.

This is your invitation to become part of our dynamic team and contribute your distinct thoughts and unique viewpoint at the ANZIC table!

The Science Committee: scientific oversight

As a member of the Science Committee, you will:

- evaluate and rank potential ANZIC participants in scientific drilling projects in accordance with program policies and guidelines
- refine criteria for ANZIC's post-drilling and legacy project support, and review and rank applications to ensure appropriate funding for these projects
- set criteria, evaluate, and rank applications for additional scientific funding opportunities provided by ANZIC (e.g., workshop travel or training opportunities)
- ensure effective scientific governance of ANZIC by participating in quarterly Science Committee meetings, yearly forums and by joining an ANZIC science sub-committee.

Privacy Collection Notice:

The information on this form is being collected by the **Australian & New Zealand IODP Consortium (ANZIC) and the Research School of Earth Science (RSES) at The Australian National University (ANU)**. This grant application is hosted by **the SmartyGrants platform and is an initiative of the ANZIC Science Committee**. A copy of your
